

IMPACT TRACK™

PROTECT

YOUR PRODUCTIVITY

When a fork truck damages your overhead doors, your whole company suffers the impact –downtime, repair costs and lost productivity. Impact-A-Tract LED provides needed illumination and important restraint status communicated to dock workers. It can easily fit into new and existing doors.

IMPACT-A-TRACK™ LED

Safety on every possible corner. The Impact-A-Track LED communicates restraint status and deflects impacts all while utilizing just a small footprint of your work area. Designed to protect standard sectional door track from impact damage.

- LED's are protected from damage keeping your doorway visible.
- Low-profile design does not impede on door opening
- No drilling into floor required
- Compatible with photo eyes
- Red LED = Restraint Not-Engaged
- Green LED = Restraint Engaged
- Amber LED = Override

LED Controller

- Wall Mountable
- Easy to Install

IMPACT-A-TRACK™ REFLECT

PROTECT

YOUR WORKFLOW

This easy to install solution provides cost effective protection to your sectional door tracks. Impact-A-Track REFLECT is made from Ultra High Molecular Weight Polyethylene and can withstand impacts from fork lifts, pallet and hand carts.

- Reflective safety strips for high visibility
- Reflectors are protected from damage keeping your doorway visible.
- Low-profile design does not impede on door opening
- No drilling into floor required
- Compatible with photo eyes

PROTECT YOUR TRACK

Impact-A-Track is designed to protect tracks in high traffic areas of a warehouse against forklifts, pallet jacks and other equipment. A damaged door track can severely inhibit workflow, especially if the door cannot open or close properly.

- Made of Ultra High Molecular Weight (UHMW) material that resists rust and moisture.
- Wrap-around design allows for easy door operation
- Anchors to wall
- Low profile design does not impede on door opening
- No drilling into floor required
- Compatible with photo eyes
